Naturesgift.ca has created this web based tool to help people and organizations use astrology in their decision making. In this presentation we will explore using astrology to make an election for anyone from anyone in the world. Election Helper Crack is a web-based system which will help you look at your possible future. Included with Election Helper is an astro-clock. This will tell you when a particular hour is at the zenith and indicate the hour in 24 hour format. Because it is important to be able to tell what time it is in any part of the world, in many areas of the world the cities have time zones. These are called time-zones. The time-zone can be selected in the settings menu. In addition to the time-zone is a declination chart. There is also a diary to record any important happenings. Some of the information available includes the months, days, and hours of the year, the moon phases, the planets, the sun and moon positions, as well as the planetary hours for the next 24 hours. There is even a catalog of horary. There are also an aphelion, perihelion, and apogee. There are many different types of houses in astrology. There are also various "aspects" and "conjunctions." We'll cover most of these in more depth in the next two seminars. For now we'll just discuss the basics of aspects. Astrologically, we call these aspects. There are many different types of aspects. On the chart they are called "conjunctions." Using a real chart we'll discuss some basic aspects, including: Direct aspect Inverse aspect Superior aspect Inferior aspect Semi-sextile Quintile Quadrature If we start at the 3rd house we'll find the 3rd house on the ascendant. The 3rd house is called the Lord of the 3rd. It is the house of partners. This is the house of partnerships, marriage, lovers, and courtship. The ascending node on the 3rd house is the point where the Sun crosses the ecliptic from south to north. The 3rd house is the house of your partner. Now that the Ascendant is on the 3rd house, we need to move on to the 7th house. To do that we need to
