What's New in the?

The best classical game is back on your mobile phones No need to drag your fingers over the touchscreen or click on the joystick, as you can now play the popular Solitaire game anytime, anywhere with the version of your mobile phones. Smooth player interface Mobile Solitaire is still available for download from the Google Play Store, and it's worth to mention that the application already made the leap from Android phones to tablets, so whether you are using an iPhone, an Android device or a Windows mobile phone, you can simply install the software for free. Soothing light background The interface gives you the option to either play the classic game, or to simply take a break from real-time and alternate between the two modes. The minimalistic design is just the right thing to relax and catch a quick breath in case you don't feel like working on something else. No ads The application doesn't display any ads, thus you won't be bombarded by any notifications or banners. It's a true delight for those who aren't fond of such things. Classic Solitaire The classic Solitaire game comes to your mobile phones for free, and is the perfect pick if you need a break from the computer, or if you just need to grab a quick 20 minutes for yourself. What's new in Mobile Solitaire? It's been made to play on mobile devices, and the interface has also been made more compact. Draw cards The application can now load both the classical and the advanced version of the Solitaire game, providing the opportunity to select your preferred type. Calendar control There's also a day/night mode and the ability to play multiple windows. Touch screen control The classic Solitaire game allows you to play the game with a joystick, a mouse and even with your fingers on your mobile phone. Solving problems Sometimes, you need to check your account balance and calculate payments in your bank account. In such a case, you can use the Calculator app. White list Mobile Solitaire is compatible with all Android and Windows mobile phones. It's the perfect companion for anyone who needs a couple of minutes to relax. Description: Out of the World 3D 3D action/free If you have ever played Temple Run 2, you are well-acquainted with the idea that 3D gaming offers much more excitement than 2D, and we hope that the same logic applies to Out of the World 3D, a game made for the mobile phones that has been out of stock for years. 3D physics engine The idea behind the game is pretty simple, with one single goal: to run as fast as you can and avoid being caught by various objects.
