The New York Central, Baltimore and Ohio, and Union Pacific rail lines meet in Wyoming Valley at what was originally a major railroad junction. The Juniata River runs through the valley. The valley contains a prison camp, a portion of the now closed Fort Detrick Base, and the equally former Fort Detrickdown Gap. References Category:Valleys of Maryland Category:Landforms of Allegany County, MarylandTongue twister A tongue twister is a type of poetic verse in which the emphasis is not upon the content or meaning of the words but rather upon the ability of the mind to generate the appropriate sound combinations. Twister poets may use the process of word-swapping to achieve this. Form The standard form of the poem is generally known as the tongue twister, and has an uneven number of syllables in the first and last lines. This is different from a rapid, in which the last line usually has fewer syllables than the first. Some writers believe a tongue twister should have eight syllables in the first line, six in the last and five in between. There should also be a pause, or what the poet calls an "anti-climax", between lines. Other poets may use such words as well, or they may simply change words until they have a six/six/six pattern. Sometimes the rise and fall of the lines is regular, sometimes following rhyme, sometimes not.
